troywendellgperalta@gmail.com
Wellspring Village Phase 2, Catalunan Pequeño, Davao City

## PROFESSIONAL SUMMARY

Responsible for the total brand (FixFinder) ecosystem, from the initial logo and UI kits to national marketing campaigns. As both CMO and Lead Designer, I ensured a "design-first" approach to growth, leading the creative direction for all digital assets, product features, and performance marketing collateral.

## EDUCATION

**Sullivan Elementary School**
Grade School
Tomaricho, Yokosuka, Kanagawa 238-0001, Japan

College (*3rd year*), Bachelor's in Science and Information Technology
Fr. Selga Street, A. Pichon St, Poblacion District, Davao City, Davao del Sur
**2023-Present**

## PROJECTS

**Nutritive - Diet Planning & Health Management App**

Developed by University of the Immaculate Conception students, Nutritive simplifies healthy living through curated meal plans and wellness suggestions. Create an account to unlock personalized features and recommendations tailored specifically to your health goals.

**BOOKIT - UIC's ITRZ Book Management System**

BOOKIT is a streamlined solution designed to boost productivity and convenience by bringing organizational tools directly to your fingertips. Tailored for both students and teachers, the platform allows for the effortless scheduling of computer laboratories and equipment reservations with just a few clicks. By replacing outdated, manual record books with a digital interface, BOOKIT ensures seamless coordination and optimal resource management, keeping the entire academic community organized and informed.

# PROJECTS

### Guide to Loratadine (Allerta)

A mobile application designed to educate users on the mechanism of action and effects of Loratadine within the body (developed for IT Elective).
Contributions:

- Videography / Editing
- Scripting
- Animation
- UI Design, Graphics Design, Logo Design, and Product Design

### NeuroZen

A mobile application prototype focused on stress management, featuring a simulated marketplace for wellness products (developed for IT Elective).
Contributions:

- Videography / Editing
- Scripting
- Motion Graphics
- UI/UX Design, Graphics Design, Logo Design, and Product Design

### ESCAPE AVENUE

A Progressive Web Application designed to facilitate the management of house rentals, booking management, and a reservation system.
Contributions:

- Front-end Developer & UI/UX Design
- Logo Design
- Back-end
- Documentation
- Videography / Editing
- Animation

### Clinic-Connect Pediatric Care Appointment System

A PWA designed to streamline patient booking, pediatric consultations, and medication purchasing.
Contributions:

- Front-end Developer / UI/UX Design
- Logo Design

### Graduate School System (Honorarium Tracking)

The Graduate School System is a web application designed to modernize and streamline administrative workflows for UIC's Graduate School. The application supports core administrative processes for students, coordinators, administrative staff, deans, and the registrar.
Contributions:

- Front-end Developer / UI/UX Design
- Logo Design
- Documentation / QA
- Project Manager

### SCALP

A Mobile Application to Promote E-Waste Conservation Through PC Part Sharing
Contributions:

- Front-end & Back-end Developer
- UI/UX Design
- Back-end / Server Administration
- Logo Design

## PROJECTS

### GUILDS 2025

Guilds is the official club directory platform for the University of the Immaculate Conception (UIC). Built with modern web technologies, it provides a comprehensive showcase of all student organizations, clubs, and societies at UIC, making it easier for students to discover and connect with communities that match their interests.
Contributions:

- UI Design / Graphic Design
- Poster and Pubmats
- Figma Prototype

### FIXFINDER

A proposed solution to develop a hyper-local "Visual Reputation Engine" that turns a Panday's smartphone gallery into a verified professional portfolio, acting as a digital bridge between the informal worker and the modern homeowner.

## CLUBS / ORGANIZATIONS

**VIBE CLUB**
Member — **2023-2024**
